Compact automatic floor Scrubber Dryers

turbolava 35 plus and **turbolava facile 35**: two innovative scrubber dryers designed for daily or occasional clean-ups of all types of floors in small / medium sized areas. Easy to use, light in weight and compact: these features make **turbolava** scrubber dryers the ideal solution quick and effective to clean any type of flooring.

When you need an **efficient cleaning, impossible to get with traditional cleaning methods**, **turbolava** floor scrubber dryers are the answer: the floor is immediately clean, dry and slip-free, thanks to the exclusive 3 fans vacuum-&-dry system and to a couple of counter rotating brushes at 550 rpm speed. **You will get perfectly cleaned floors while respecting the environment**, with the lowest possible use of chemicals or also without detergents and with a power consumption of only 640W.

turbolava 35 plus and **turbolava facile 35** are applicable for domestic use, too. They are built to last with a

turbolava® *facile 35*

turbolava facile 35 compact, light and easy to carry, ideal for middle to average sized rooms or for domestic use. Easy to use, it grants the highest cleaning power in its category and dries the floor immediately.

With a clear 4 lt. removable water tank and easy to empty waste water tank, that collects the dirt removed by the circular brushes and vacuumed up from the

floor that remains perfectly clean, will make you forget the manual cleaning with mops and bucket.

Disguised as a household appliance is a professional, built-to-last machine, that will become the solution for a cleaner floor for a long time.

Further, the battery-powered version can be smoothly used: no need for cables that may hamper your movements or extension cords.

2 models, 4 versions: cable or Li-ion battery powered

minimum maintenance. A full set of accessories and brushes are provided to clean and polish any type of flooring, wash carpets, terraces and garages or maintain floor surfaces in restaurants, cafés, hotels, shops, grocery stores, sport clubs, offices, schools and more.

turbolava scrubber dryers move fast even in highly cluttered areas with obstacles such as furniture and shelving. The compact design enables cleaning into the corners and right to the skirting, as well as under furniture. Easy to operate and light weight makes for a swift transportation thanks also to its big wheels.

Both **turbolava 35 plus** and **turbolava facile 35** are available in two different versions: the power cord model and the most recent lithium ion battery model, for easy and fast recharge at any time, with **1 hour working autonomy** makes cleaning easy and comfortable. The rapid recharging time allow several cleaning periods during the day.

turbolava® 35 plus®

turbolava 35 plus offers both forward and backward drying and its unique double suction units completely remove the dirty water on the floor also fitting under table and desks.

Ideal for daily cleaning and maintenance of public areas such as restaurants, cafés, canteens, kitchens and schools. Turbolava 35 plus, in its battery operated version, is even more manoeuvrable, with 1 hr. full autonomy and a swift recharge, allows the user to clean and perfectly dry

floors even in areas of public use since there's no risk of slipping on wet floors or tripping on the cord.

The effective counter rotating brushes were studied and designed specifically to also clean into the grout lines between tiles thanks to inclined bristles. The 4lt. easily removable tanks, the manoeuvrability and manufacturing quality are all elements that make this compact scrubber dryer a great alternative to the bigger, heavier and bulkier machines, that are difficult to move and store.

Compact automatic floor Scrubber Dryers

*Versatile, with a wide range of accessories available
Fit for all types of flooring*

turbolava 35 plus and **turbolava facile 35**, thanks to their full set of accessories, quick and easy to install and handle, can clean all type of surfaces. Brushes for aggressive scrubbing on hard / industrial floors, no slip-safety floors; soft brushes for vinyl / delicate flooring; brushes for marbles or tiled floors; microfiber or abrasive pads to wash or polish; brushes for carpeting.

The batteries, assembled in Italy with top class components, exploit the Lithium-ion technology: rechargeable in about 3.5 hours, after one-hour charge they reach 50% of their full-state of charge; they are light-weight and easily removable, if need be.
