

Sprite

**Low Profile
High Performance**

Speed provides Flexibility

The Sprite range of machines are available in two speeds, standard (230 rpm) or high (300 rpm) offering the flexibility to carry out almost any task.

Low Profile for greater reach

The low profile extended base allows users to clean effectively beneath overhanging shelving or tables.

Available in two sizes

The Sprite range is available in the 400 mm (15") Sprite 400, or 450 mm (17"), Sprite 450.

Delivered Ready for use

The Sprite machines as all Victor machines, are delivered fully assembled and ready for use. A drive board is included so just attach the appropriate pad and start cleaning.

Powerful Accessories

All of the Sprite machines include a power adaptor to connect active vacuumation via an exhaustor unit. This makes the machine ideal for use in sensitive environments especially when fitted with HEPA filtration.

The Sprite Range of rotary machines offers proven performance across a range of hard floor cleaning tasks including buffing, spray cleaning, scrubbing, bonnet mopping and carpet care.
